INSTRUCTION BOOKLET

**THQ**

**WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.**

**IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES**

**⚠ WARNING—Seizures**

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

**Convulsions**

**Altered vision**

**Eye or muscle twitching**

**Involuntary movements**

**Loss of awareness**

**Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

## **WARNING—Repetitive Motion Injuries**

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

## **WARNING—Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

# A LONG TIME AGO

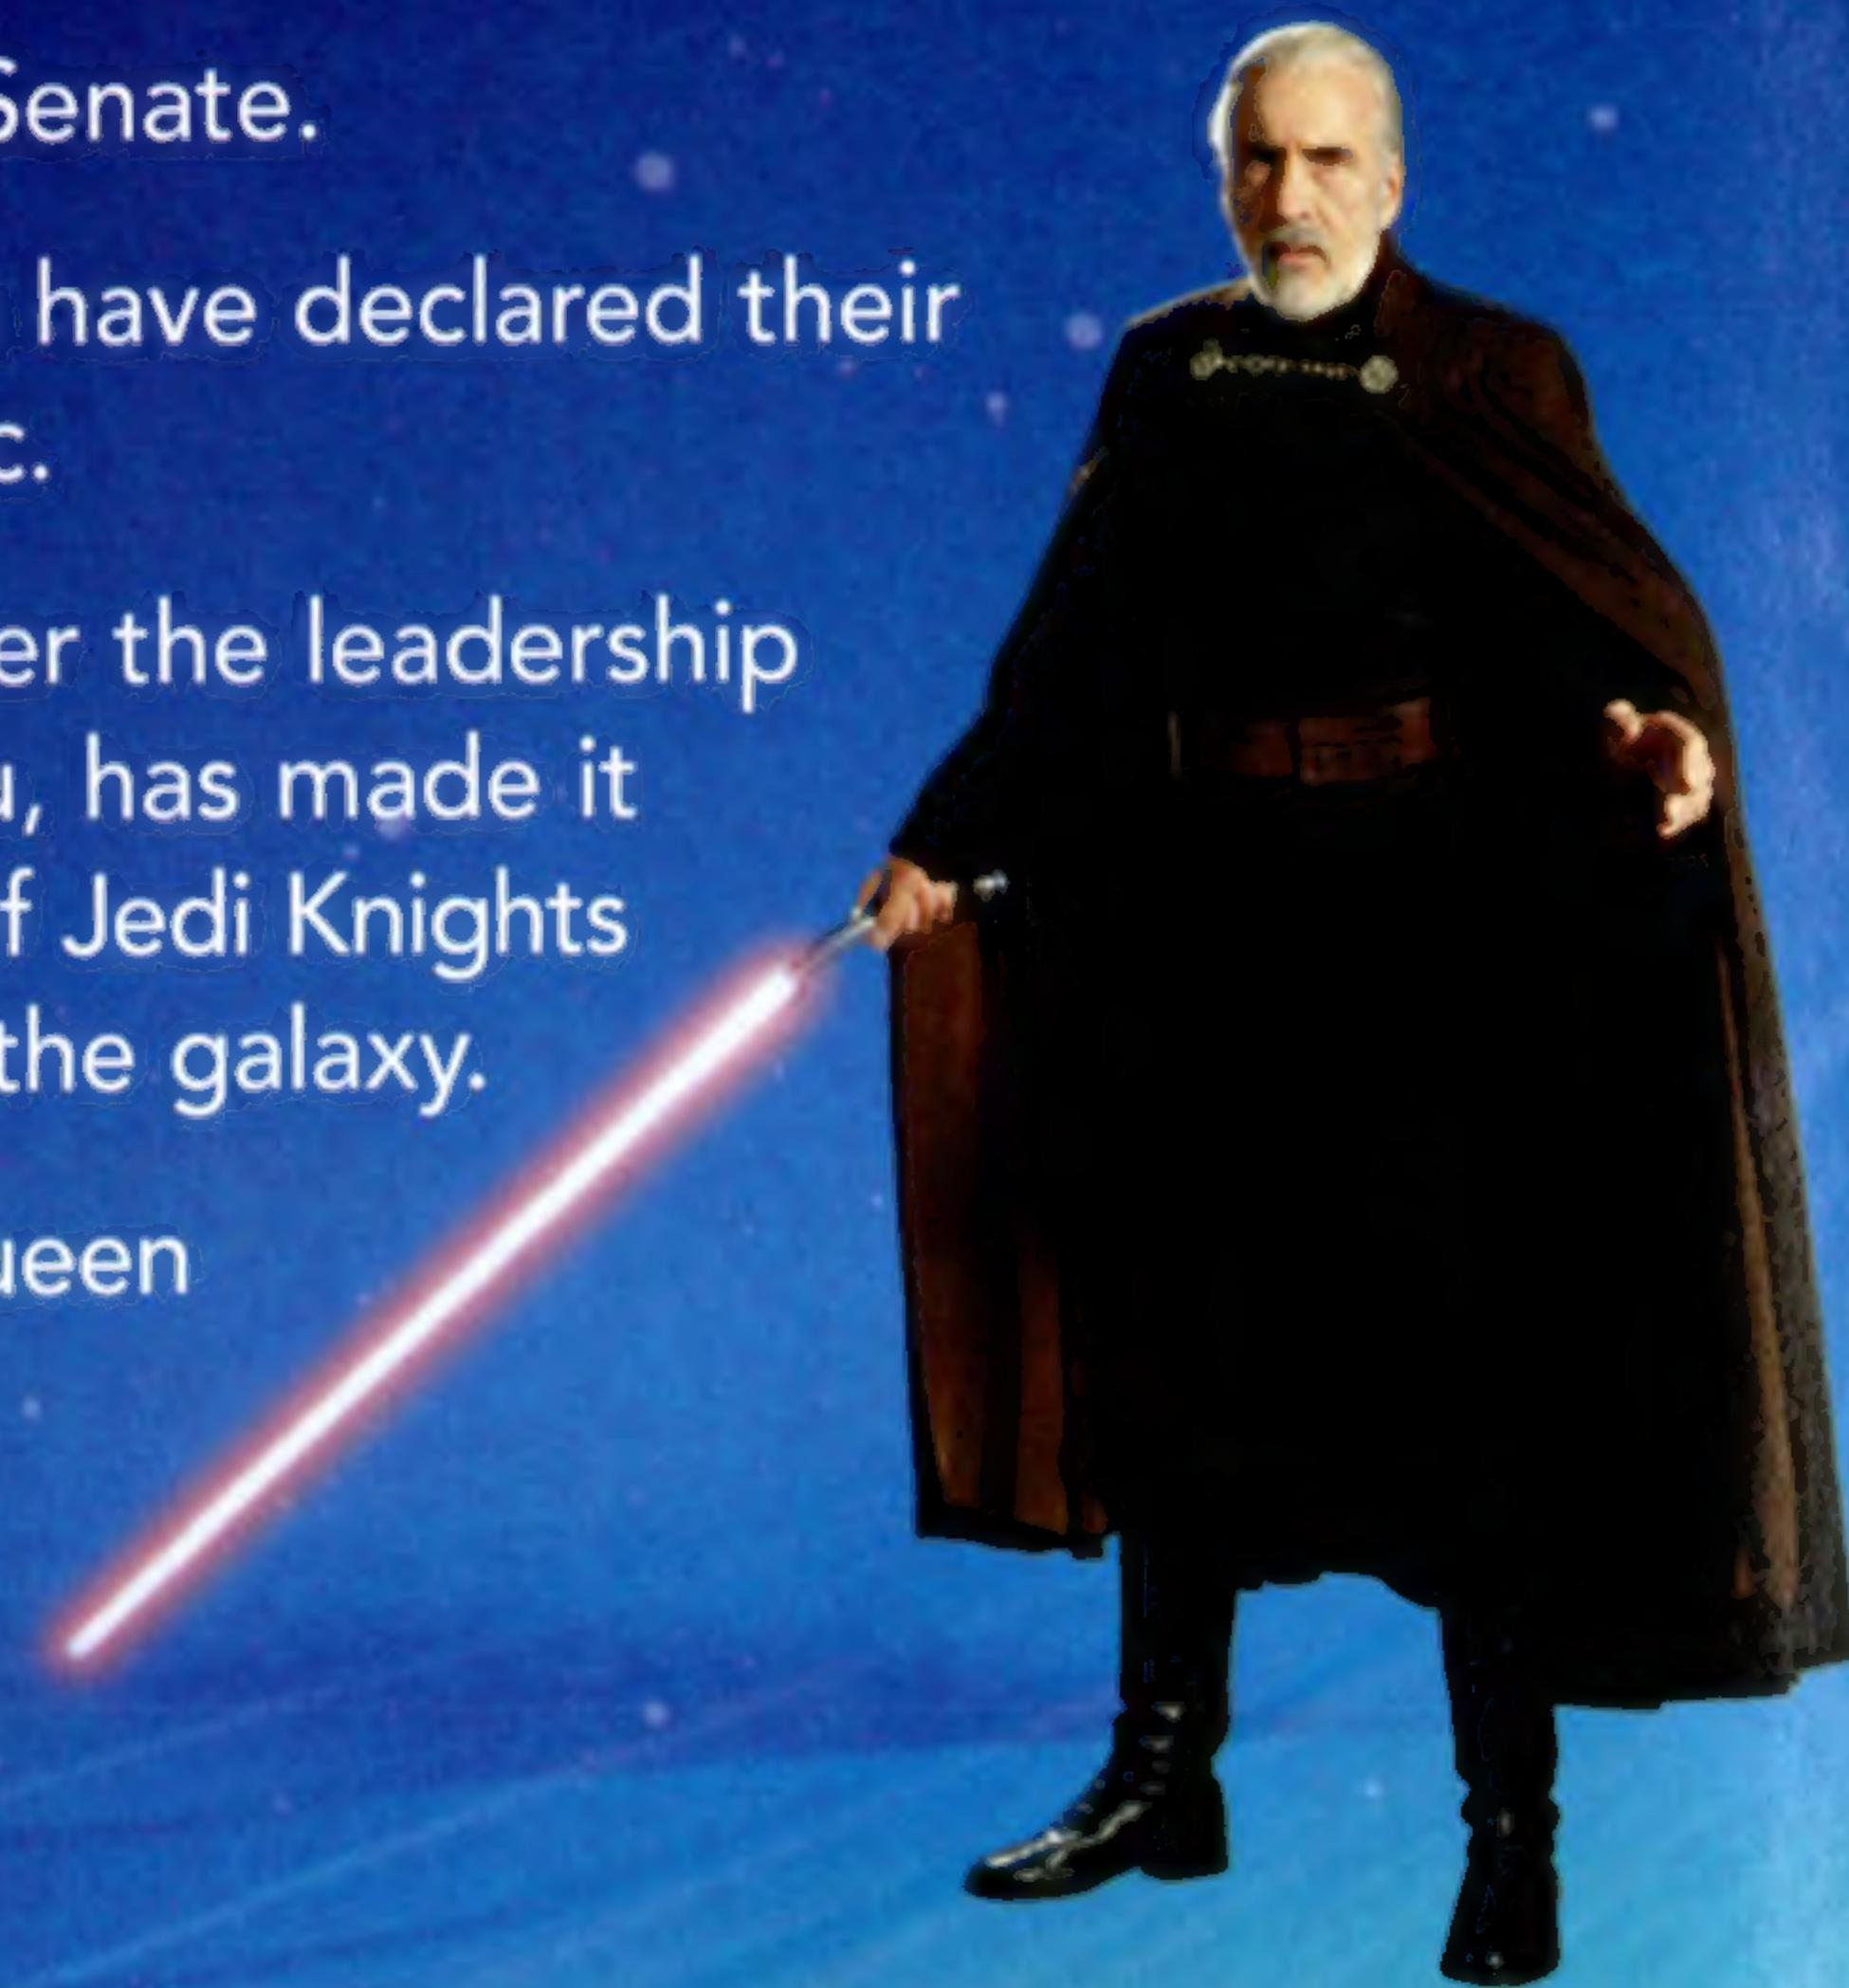

In a galaxy far, far away....

There is unrest in the Galactic Senate.

Several thousand solar systems have declared their intentions to leave the Republic.

This separatist movement, under the leadership of the mysterious Count Dooku, has made it difficult for the limited number of Jedi Knights to maintain peace and order in the galaxy.

## ATTACKING AND BLOCKING

While moving through each level, you must learn when to attack the enemy and when to block their attacks. Use the Force only when necessary.

### To Attack

When an enemy is within striking distance, hold the A Button, then press the Control Pad towards the enemy to attack. For a different attack, try pressing UP or DOWN on the Control Pad while holding the A Button. If an enemy approaches you from behind, quickly hold the A Button, then the Control Pad away from the direction you are facing.

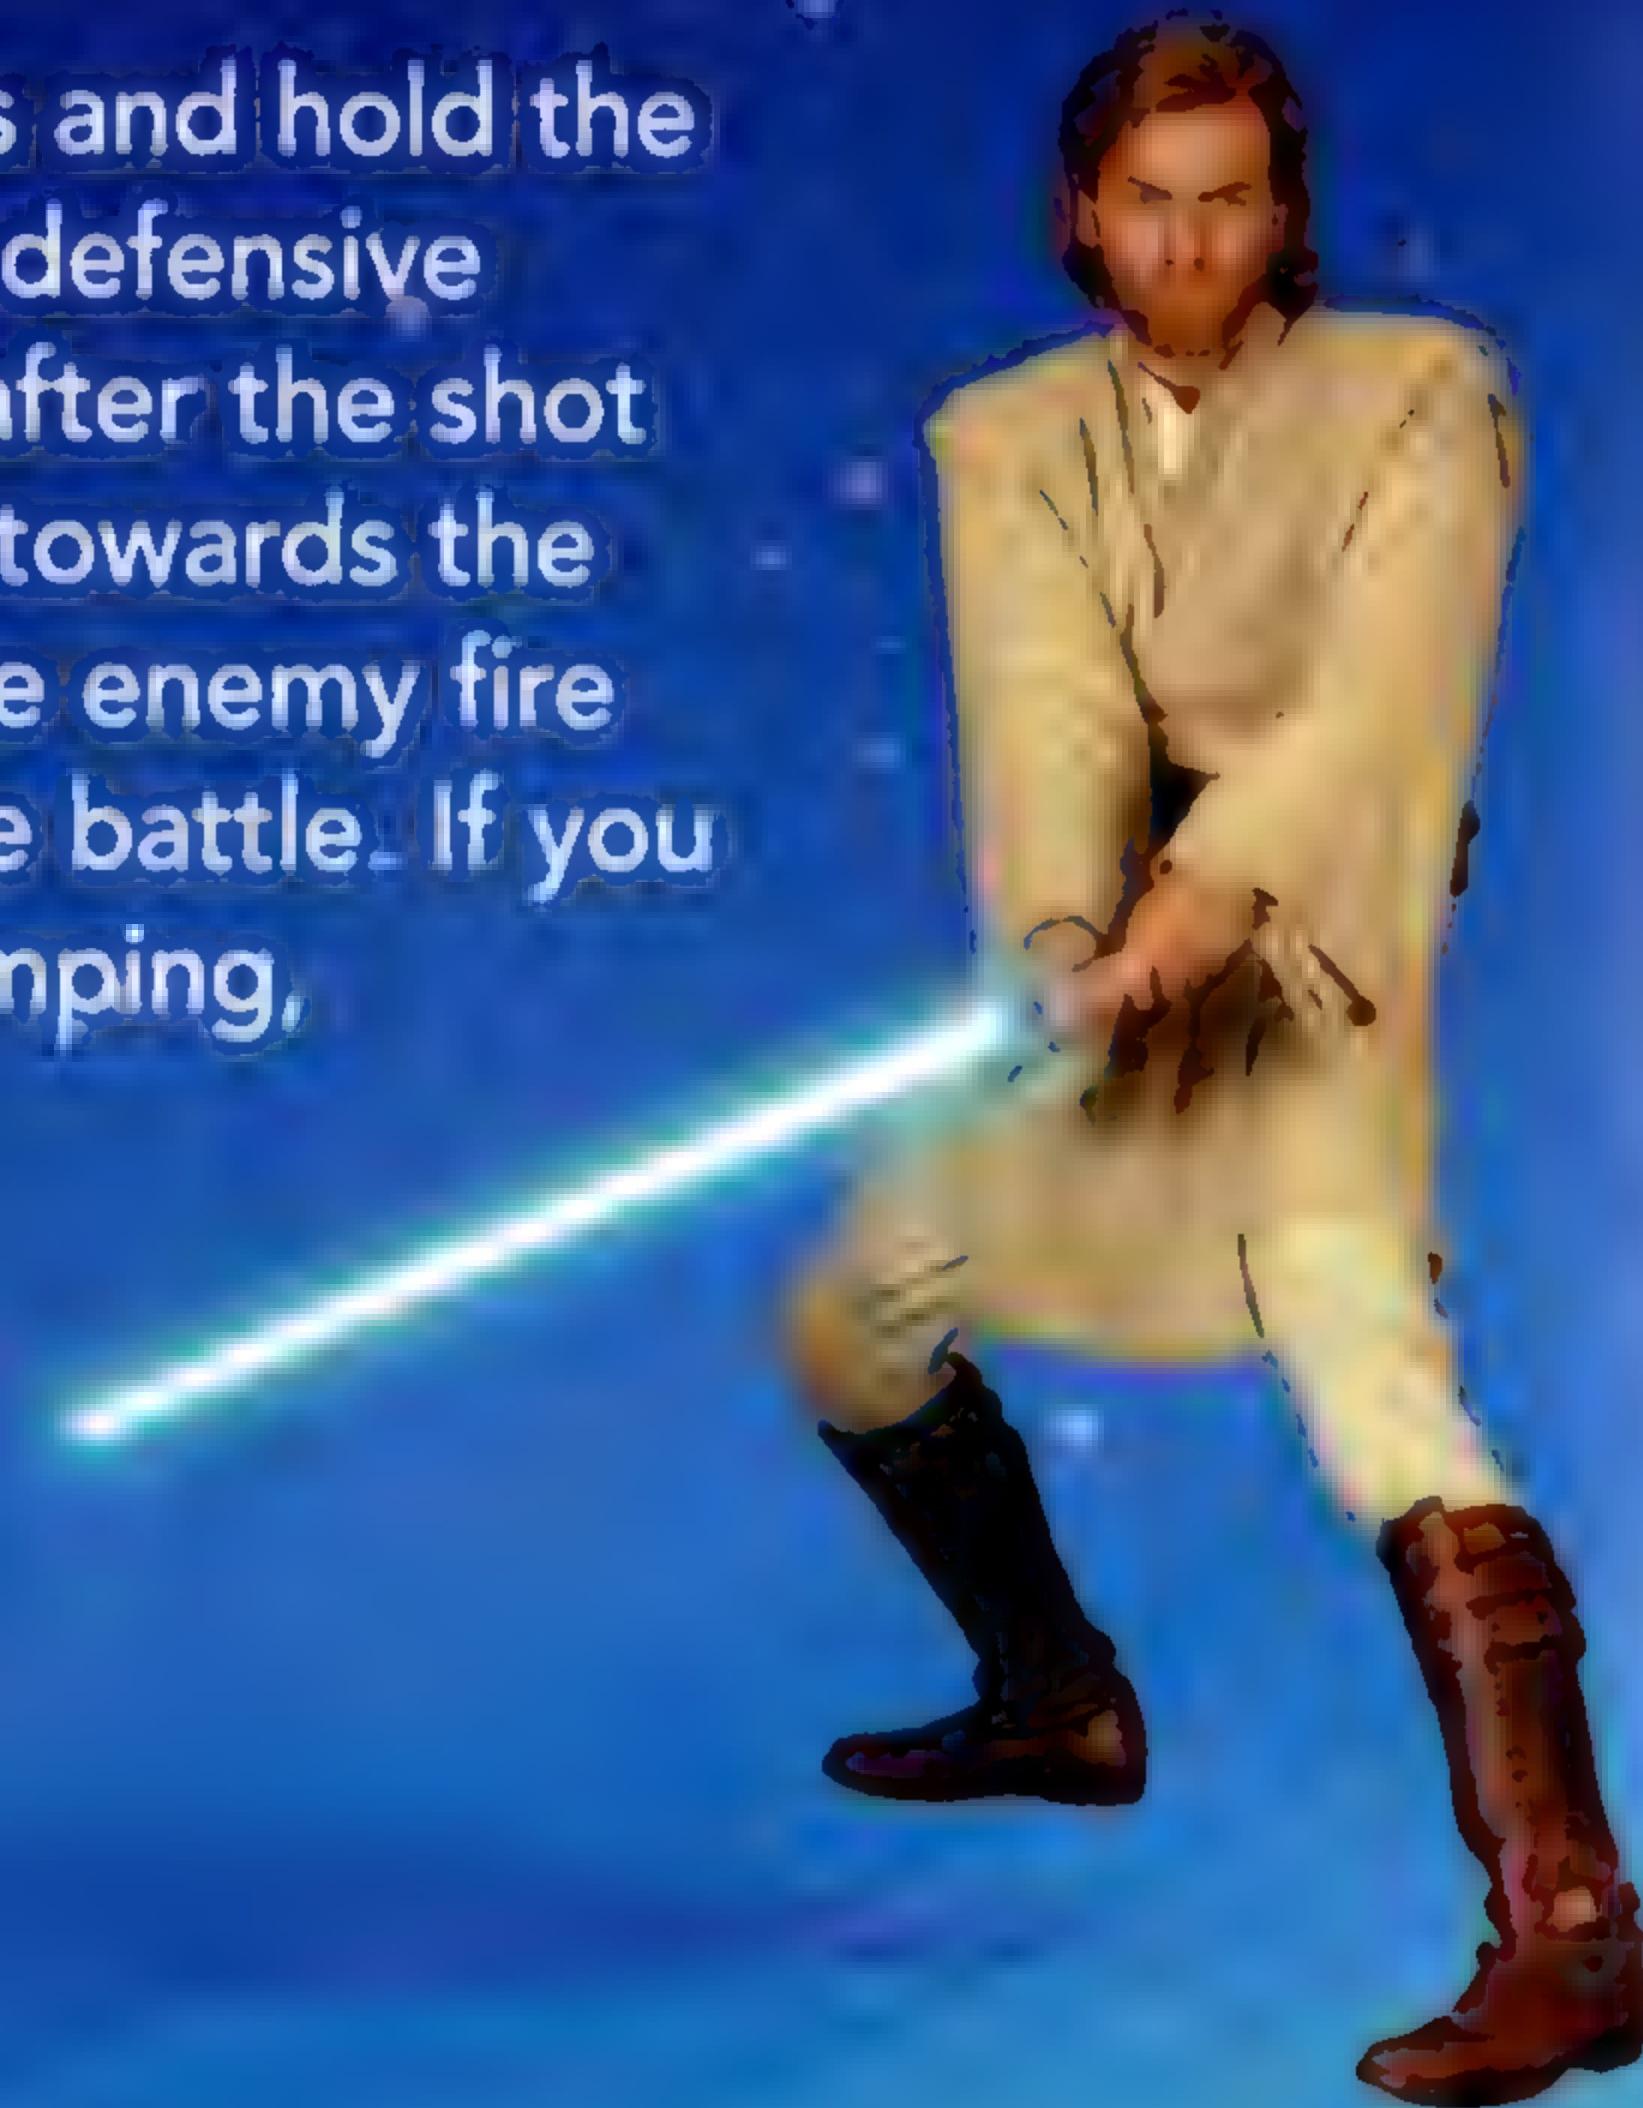

Note: For Special Combo Attacks, try pressing the Control Pad quickly in (+) a different direction after pressing the A Button. For example, A Button + Control Pad UP + Control Pad LEFT.

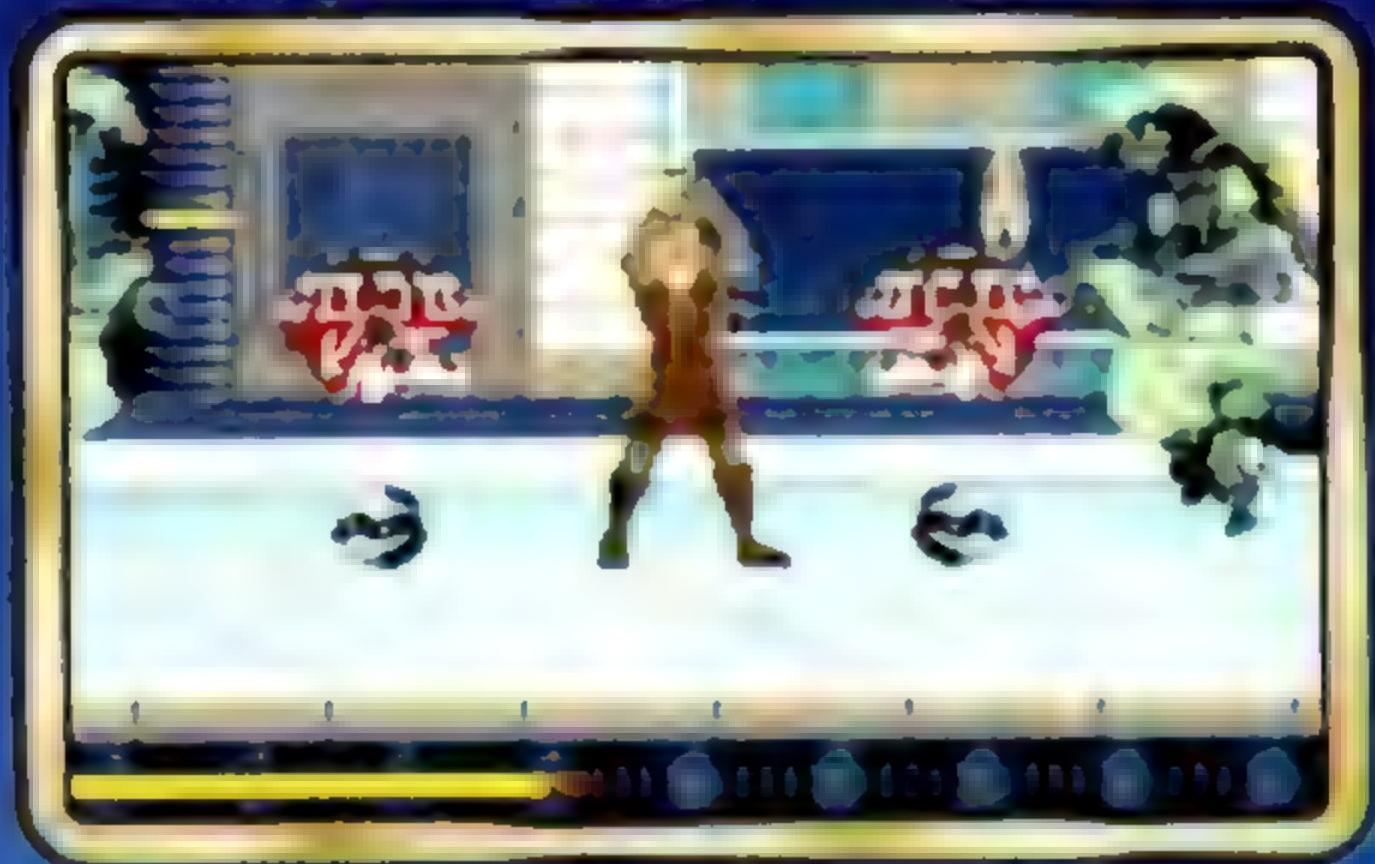

10

## To Block

When an enemy is firing at you, press and hold the R Button to hold your lightsaber in a defensive stance. Press and hold the R Button after the shot is in the air to redirect the shot back towards the enemy. Your lightsaber will deflect the enemy fire away from you so you can resume the battle. If you press the R Button in mid-air after jumping, the Jedi will spin to avoid an oncoming attack.

**Note:** Although your Jedi skills are great, you won't be able to block all shots directed towards you. You should close in and eliminate your opponents as quickly as possible.

## THE FORCE

As a Jedi Knight using the Force, you have more weapons available to you than merely a lightsaber. In **Star Wars: Episode II Attack of the Clones** you can utilize different Force abilities to aid in vanquishing your enemies. These abilities drain from the available Force Meter in varying amounts.

**Note:** You will slowly regenerate enough Force Power to perform a Force Jump.

The Force Meter increases as you collect Force power-ups. When you attain enough Force to perform the next ability, the icon to the left of the Force Meter will change. The Force Meter depletes as you use each Force Power.

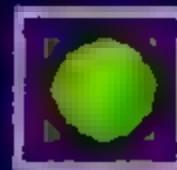

**Note:** If the Force Meter is full, the enemies will drop health items.

The available Force Powers are different when playing through either an action based Side-Scrolling level or a 3-D based level.

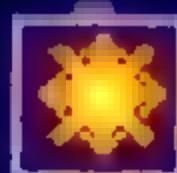

## Side-Scrolling Action

**Force Jump**—Reach platforms not accessible by the normal jump.

**Force Push**—Push opponents and obstacles out of the way.

**Super Force Push**—Send forth a wave of pure Force energy, affecting everything on-screen.

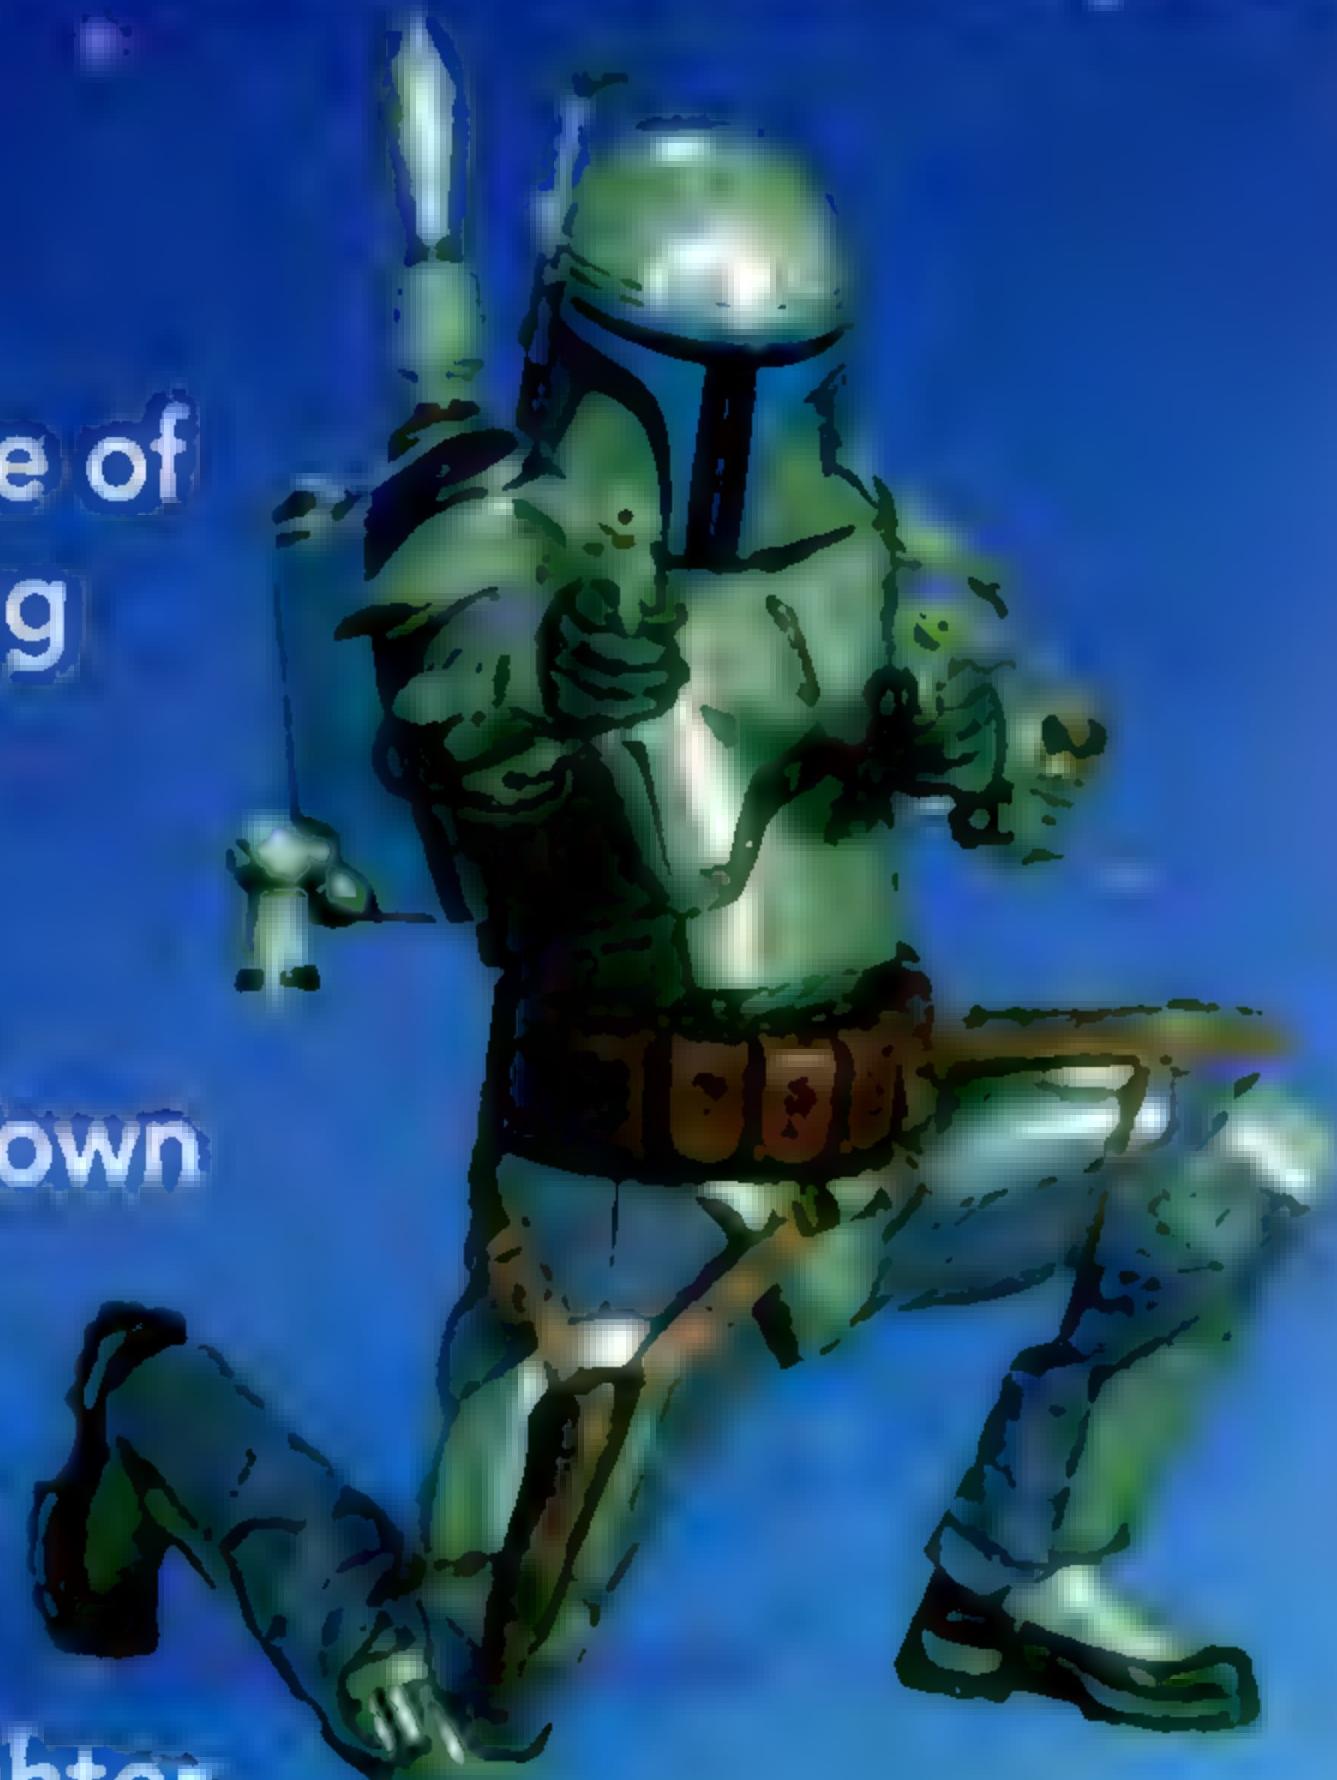

## 3-D Action

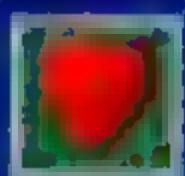

**Force Slow-Down**—Slow the world down to quickly escape tricky situations.

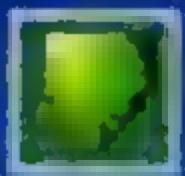

**Force Auto-Lock**—If the Force Meter is above 75% you can activate the Auto Target feature of the Jedi Starfighter. Once enabled, the Force Meter will slowly drain.

**Invulnerability**—Not available in the Jedi Starfighter, this allows you to become invulnerable to damage. This is much less effective in a borrowed speeder. The invulnerability icon will be red when chasing Zam through Coruscant. It will be green when chasing Count Dooku to the hangar.

## POWER-UPS

**Health**—Increase your health by finding this power-up. When the health meter is depleted, you will lose a life.

**Extra Life**—Gain an extra life to your total amount of lives remaining with this power-up. When you lose all of your lives, the game is over.

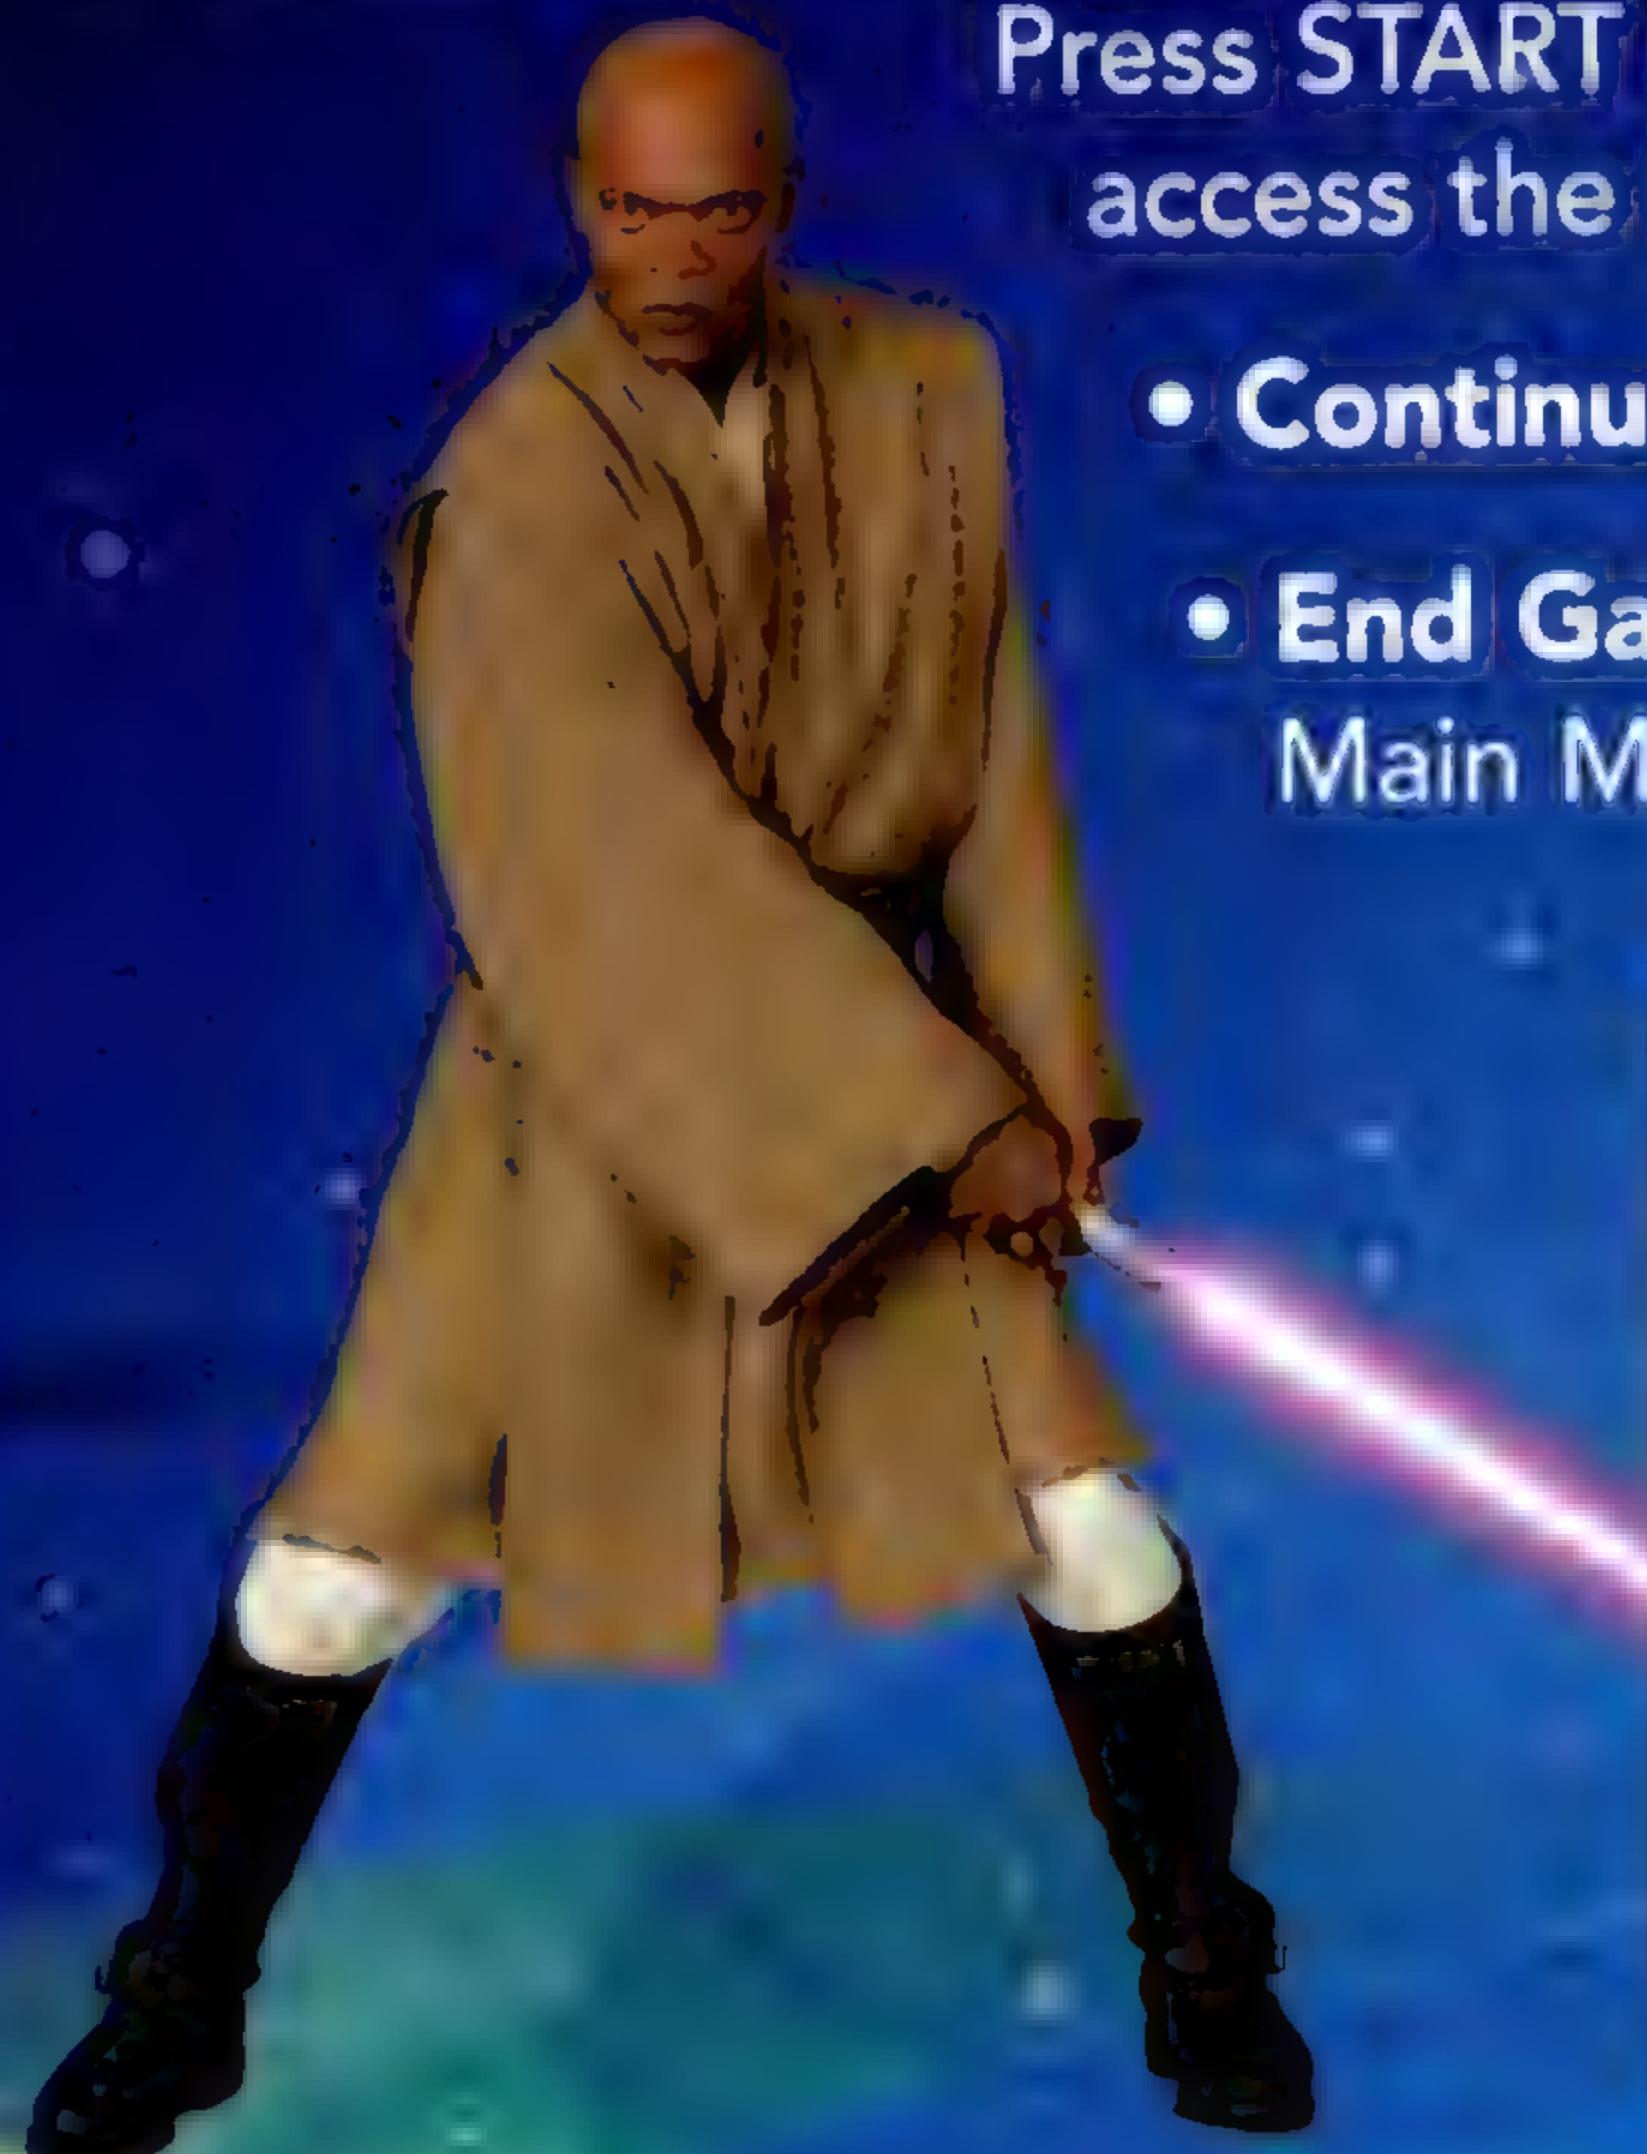

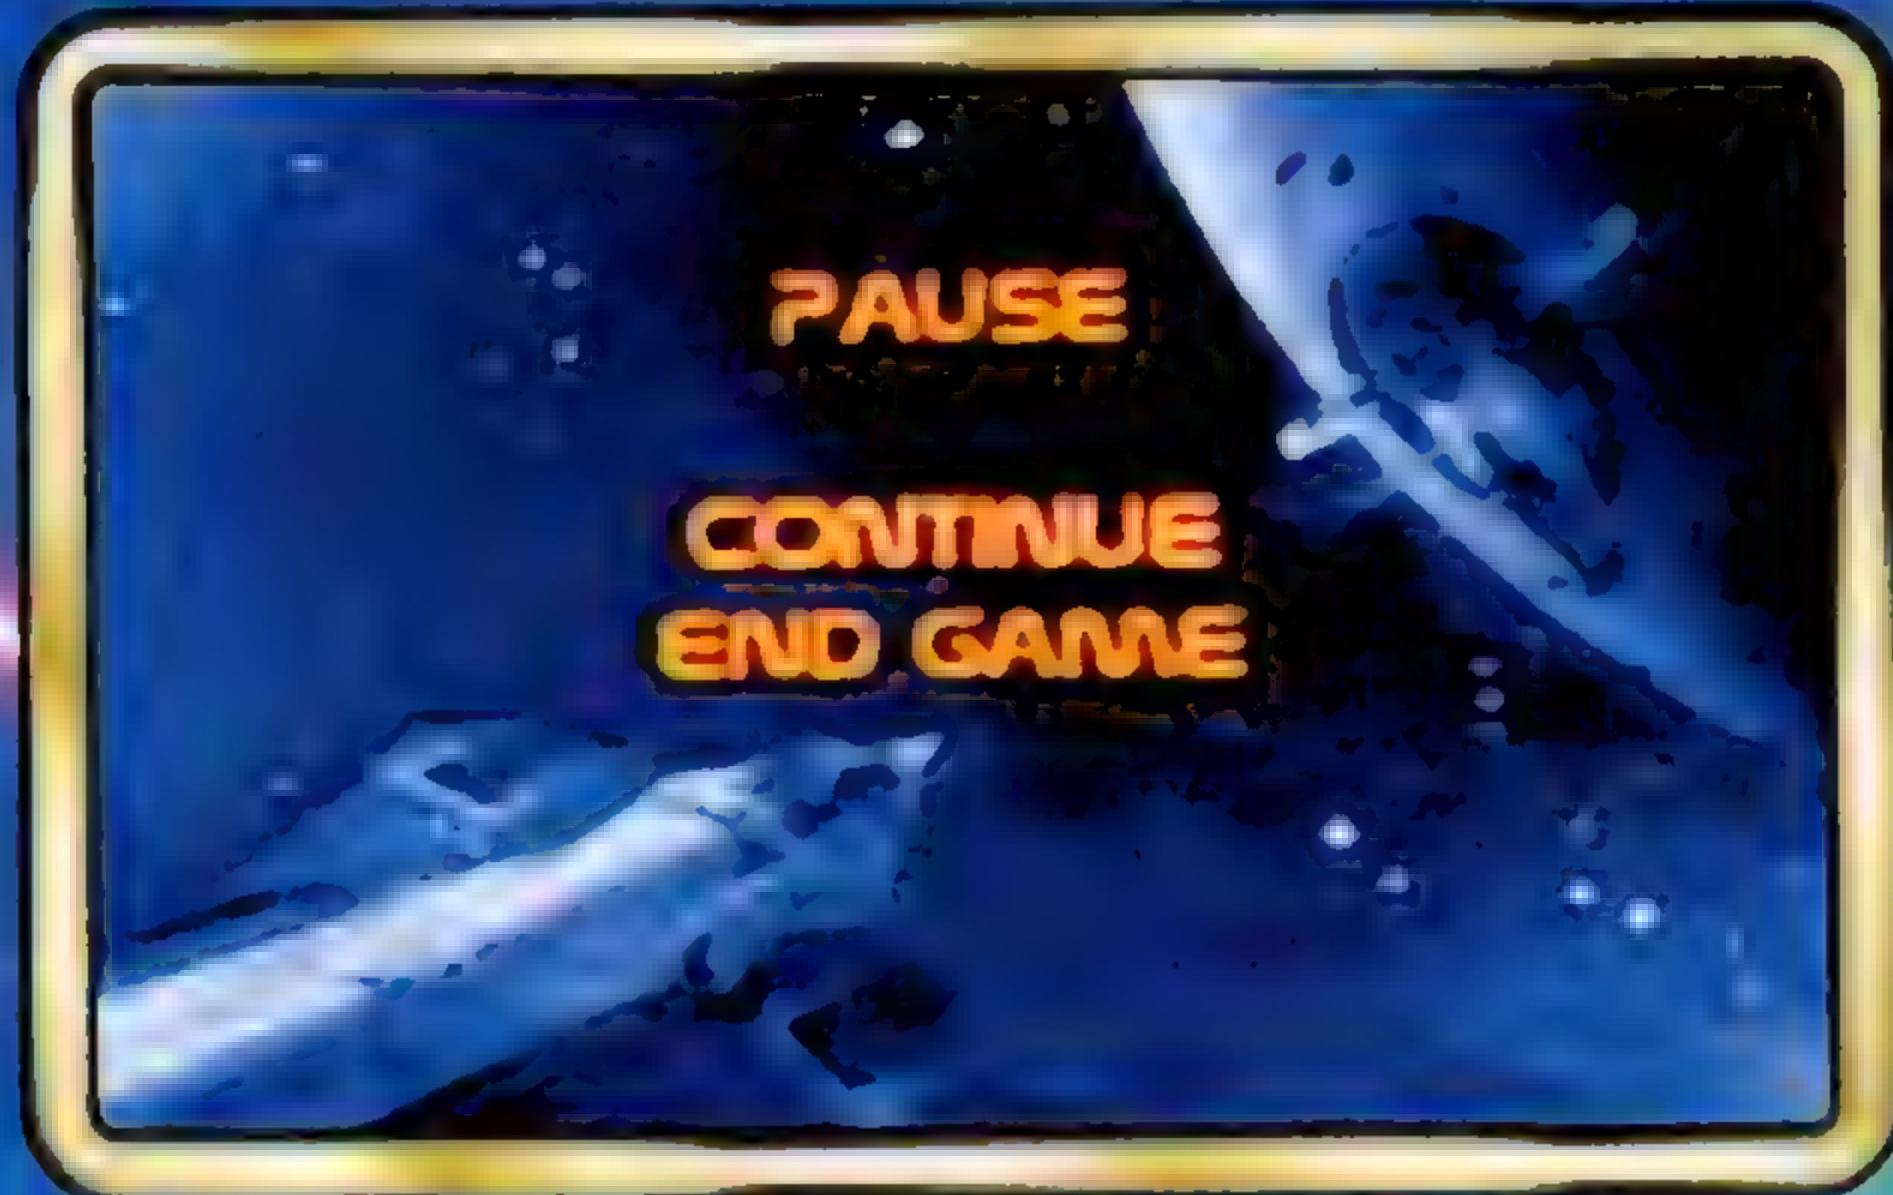

**The Force**—Find the Force power-up to increase your available Force, as shown on the Force Meter. See THE FORCE on page 11 for more information.

## PAUSING THE GAME

Press START at any time to pause the game and access the following options.

- **Continue**—Return to battle!
- **End Game**—Exit game and return to the Main Menu.

# SAVING AND LOADING

*Star Wars: Episode II Attack of the Clones* uses a password system to save and load the game data.

## SAVING A GAME

After completing each level, a password screen will appear. Be sure to write the password down exactly as it is shown for future reference! You will not be able to return to the saved point of the game if the password is incorrect.

## LOADING A GAME

To load a previously saved game, select PASSWORD from the Load Screen. Now use the Control Pad to highlight a letter and press the A Button. Select the second letter and continue the process until the password is complete. Press START to enter the password and continue your game. If correct, you will return to the beginning of the next level, at the point where the game was saved. If incorrect, you will have to enter the password correctly.

Control Anakin as he races across the top of Senator Padmé Amidala's apartment building and into the hangar where an available speeder awaits.

## Level 11: Final Battle
